

Wells

Universal

Compact

Universal and compact wells

The universal SUPERSNOW well is a functional solution supporting snowmaking systems. Its modular construction and ready-to-use mounting points allow for quick and simple installation. It performs well in challenging terrain and weather conditions, ensuring durability and reliability. It facilitates the installation of water, electrical and air systems, reducing time and costs of slope works.

Universal well

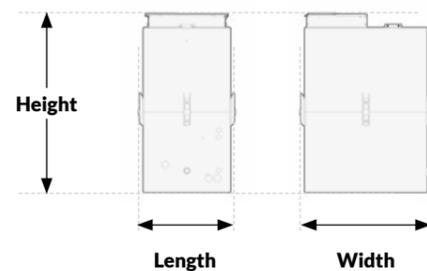

It offers plenty of space inside, which allows for easy movement and convenient access to equipment. It is also designed for stable mounting of the T600 boom.

Compact well

This is a smaller version of the well, suitable for mounting the T400 boom.

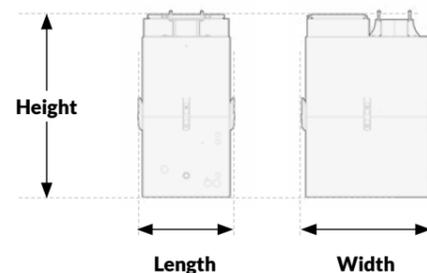

Dimensions

Compact well

Width	990 mm
Height	2090 mm
Length	1390 mm
Weight	2500 kg

Universal well

Width	1200 mm
Height	2090 mm
Length	1700 mm
Weight with bottom	3434 kg
Weight without bottom	3241 kg

Standard equipment Universal well

- Concrete structure with hatch
- Modular hatch 800x600
- Four galvanized steel rungs
- Flat bar connecting well halves, 4 pcs
- Flat bar with transport hook, 2 pcs
- Set of standard fasteners for Universal Well

Optional equipment

- Side or bottom water inlets
- Electrical connectors
- RV1000 valve
- 100 W heater
- Air connection
- Connection outlet (chimney)

Standard equipment Compact well

- Concrete structure with hatch
- Joining profile for compact well halves
- Air inlet sealing plate
- One-piece 6-rung ladder
- Ladder bracket for anchor pin
- Ladder mounting pin
- Set of standard fasteners for Compact Well

Wyposażenie dodatkowe

- Side or bottom water inlets
- Electrical connectors
- RV1000 valve
- 100 W heater
- Air connection
- Connection outlet (chimney)

Snowmaking equipment

Lances: 1V, 2V, 3V, 3V+

Snow guns: 900T, 900H, 900A, 900MN, 700S, 700H, 700ASE, 600M
